MOOC
Teacher Training Programme

PARTNERS

**With NAO,
we can create a more personalized
and interactive learning environment
where every student can thrive.**

TEACHERS CAPACITY BUILDING

By blending theoretical knowledge with practical experience, our project empowers educators to harness the potential of technology. Through rigorous training, collaborative workshops, and innovative online resources, we equip teachers with the tools to inspire the next generation of learners.

PREPARATION FOR PILOTS

By integrating STEM, arts, and humanities, our project empowers students to become creative problem-solvers and global citizens. Through experiential learning, inquiry-based approaches, and innovative technology, we inspire young minds to address real-world sustainability challenges.

PILOTING EDUCATIONAL MODULES AND APPROACHES

By curating a comprehensive handbook of best practices and organizing transnational collaborations, this project aims to foster a community of innovative educators. Through a focus on practical applications and data-driven insights, we empower teachers to inspire the next generation of learners.
